

Engaged and Experiential Learning for Online Students

Online Bachelor of Arts in **ENERGY & SUSTAINABILITY POLICY**

STATS

- 121 credits required; all coursework available online
- 3-credit internship/study abroad requirement
- 63% of ESP students are aged 30-49
- Located in 20 U.S. states and all over the world

STUDY ABROAD

- Online courses with embedded travel
- Short term travel integrated with follow-up course
- Students with previous international experience may submit a portfolio for credit

ESP student Mark Staub enjoys the scenery while participating in GREEN Costa Rica

GREEN Iceland provides students with access to world renowned hydropower and geothermal generation stations.

INTERNSHIPS

- Internships completed in student's home area
- Non-traditional, innovative, and flexible

ESP student Lori O'Neill created the *Environmental Sustainability Business Plan for Give a Dog a Bone (GADAB) dog walking/pet sitting services. She also developed a "Green"* package offering

GADAB clients the opportunity to earn a \$10 discount when they purchase \$10 worth of Dominion Virginia Power's Renewable Energy Certificates (a total of 770 kWh of renewable-sourced electricity). Each client participating in the program can claim a carbon footprint reduction of 14,000 pounds of CO₂/month; the equivalent to removing 1.2 cars from the road a year or planting 162
